Dear parents, "If you are a lovable and responsible parent, open doors to unknown directions to the child. So he can explore. Don't make him afraid of the unknown. Give him support." – Osho

"Your children need your presence than your presents". It is necessary to bring curiosity and interest in the learning phase. As you are nodding to the above statement, dear parents, encourage our KRS kids to take part in all competitions and competitive examinations to win fabulous prizes with good credit.

By giving students the opportunity to experiment with various extracurricular activities outside of their academic life, we open the door for a potential future in arts, music, sports and theatre, sparking their knowledge beyond their strict academic work.

KRS education believes in convergence of innovation and education. Even the process of making the learning simple and practical was made a reality through the efficient application of digital tools like Educomp Smart Class.
